This paper is submitted in response to an Office Action of
May 7, 2003.

Please amend the application as follows:

HAYES-5

07/01/2004 SLITTLE 00000001 160221 09960175
01 FC:2201 43.00 DA

New claim 17 is limited to a body element having two converging walls and two generally parallel walls, with the vertices of the body element having a rounded configuration. It appears that claim 17 distinguishes from the prior art similarly to claim 9.

In review thereof, allowance of claims 9-17 is most respectfully requested.

In the event that any additional fees may be required to be paid in connection with this matter, please charge the same, or credit any overpayment, to Deposit Account No. 16-0221.

Respectfully submitted,

James A. Sheridan 11/7/03
